Re: Alternate Submittal Date Request
Revised Feasibility Study Report
Plainwell Mill, Operable Unit #7
Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site

Dear Mr. Gay:

The United States Environmental Protection Agency (EPA) has received Conestoga-Rovers & Associates's (CRA) request dated November 12, 2013 to extend the reporting date to submit a revised Feasibility Study (FS) Report for the Former Plainwell, Inc. Mill Property Operable Unit No. 7 located in Plainwell, Michigan (Site). CRA requests that the 30-day timeframe for submittal of the revised FS Report be extended until December 20, 2013 in order to adequately address EPA's comments. EPA approves CRA's request for an extension. Please submit a revised FS Report that corrects all the deficiencies listed in EPA's FS Report comment letter dated November 1, 2013 by December 20, 2013 for review. If you have any questions or comments regarding this letter, please contact me at (312) 353-4150 or via email at desai.sheila@epa.gov.

Sincerely,

A handwritten signature in cursive script that reads "Sheila Desai".

Sheila Desai
